

Electrical Permit – Information to apply for “ME” application.

All sections of the online application must be completed with the required information, or the application will not be processed.

Please read all conditions before [submitting your application online](#). The property owner and/or licensed contractor/authorized agent must sign and date the paper copy application or submit directly online. [The property owner must match the owner listed online](#). A separate permit application is required for each building or structure except townhouses or commercial tenant spaces where each unit requires its own permit.

Project Cost \$ _____
 Current Service Capacity _____ AMPS
 Proposed Service Capacity _____ AMPS

APPLICATION TERMS & CONDITIONS:

- The issued permit becomes invalid unless the authorized work commences within 180 days of the date of issuance or after commencement of work if more than 180 days pass between inspections.
- It is the duty of the Contractor/Applicant or Owner to assure that all required inspections are scheduled 24hrs in advance and approved by the Missoula County Building Inspector. Furthermore, it shall be the duty of the inspection requestor to coordinate & provide access to and means for the inspection of the work.
- A homeowner may secure a permit and wire their own “Primary” Residential buildings for their private use only. Buildings used as rentals, businesses, etc. and all contract work must be performed by a licensed electrical contractor using only licensed electricians. Hired electricians must sign & apply for their **own** permit. Reference MCA & ARM listed below.
- This permit is not reviewed for compliance with zoning, floodplain, or conditions of subdivision approval and may require a Land Use permit approval prior to issuance of this electrical permit.
- The individual who signs this application assumes all responsibility and liability for the work performed as specified herein.
- I hereby certify that I have read and examined the application and know the same to be true and correct and agree to perform the electrical work in accordance with all [Title 50, Chapter 60, Section 604 MCA](#) and [ARM 24.301.431](#). All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction and that I make this statement under penalty of perjury.
- All permits remain with the property and the work described herein shall receive final approval prior to expiration as noted above. If permit expires without an approved final inspection, a Notice of Violation may be filed on the property until such time as a final inspection is approved.
